About the Scholarship

The Foundation, family, friends and colleagues of the late George Anderson Macdonald Scott, BA BSc(Hons) PhD DSc FLS, who died in 1998. The Foundation also received a bequest from the estate of the late Dr Helen J Hewson. Donations have been received on a regular basis since then from the Foundation's annual giving program. In 2014, further donation was also received from the estate of the late Royce Ann Scott, presented to the Foundation by her sons Hamish, Iain, George and Dougal Scott. Dr Scott was an internationally renowned plant ecologist and bryologist. From 1986 to 1992, he was Master of Queen's College at the University, and from then until his death in 1998, a research fellow with the former school of Botany. He is remembered for his pioneering books on the mosses and liverworts of southern Australia.

Established by the School of Botany Foundation in honour of G.A.M. Scott's contribution to Australian bryology and plant ecology. Dr Scott was an internationally renowned plant ecologist and bryologist. From 1986 to 1992, he was Master of Queen's College at the University, and from then until his death in 1998, a research fellow with the former school of Botany. He is remembered for his pioneering books on the mosses and liverworts of southern Australia.

Eligibility

To be eligible for this scholarship, you need to:

- Be a postgraduate student or an honours (or equivalent) student, in the discipline of botany within the school of Bioscience, and
- Be undertaking research that involves field work in the areas of either bryophytes or ecology, with particular preference being given to research work involving bryophytes.

Selection criteria

The scholarship is offered to the student(s) ranked highest by the selection panel based on their research project and personal statement.

Outcome

All scholarship outcomes will be sent via SmartyGrants.

Please see outcome timing below:

- **Round 1** (Jan-March applications): May-July
